

### Scope of Work

Supply of Prefabricated Paint Booth as per the Scope of Work (SOW) requirements.

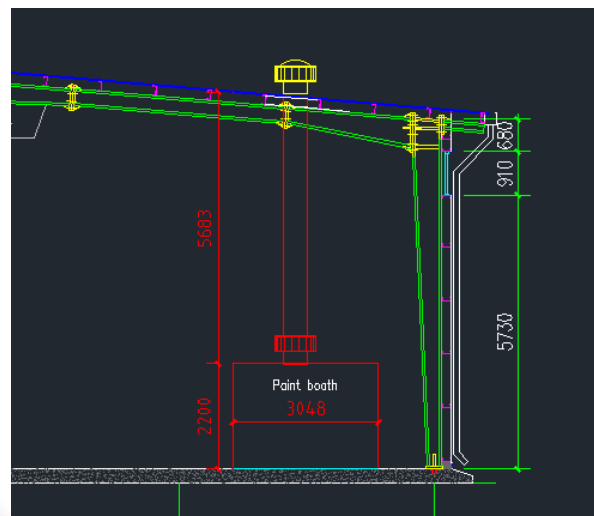

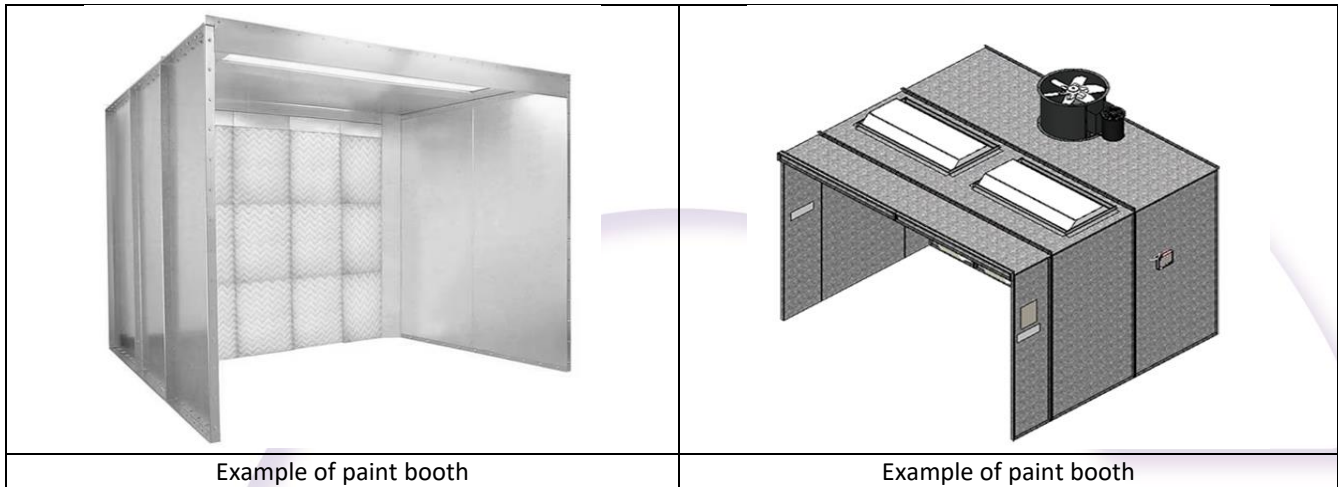

#### 1. REQUIREMENTS TO PAINT BOOTH

**Dimensions:** 8'6" W x 7' H x 10' D (Tentative inside dimensions; any variations to be confirmed by client).

**Booth Style:** Open-Face (as shown as the examples pictures)

**Walls and ceiling material:** Galvanized steel

**Equipment:** The paint booth needs to include lighting fixtures, a high temperature, an explosion-proof exhaust fan, and vent ducts to exhaust fumes from the paint booth through the roof out of the facility.

Sketch of a paint booth with a vent duct

#### 2. DELIVERABLES

1. Drawing Paint Booth with Dimensions
2. List of Equipment for Paint Booth with its specifications
3. Quotation with Separated Costs
  - Separate cost for the paint booth itself.
  - Separate cost for the ventilation system (exhaust fan, vent ducts, etc.).
4. Manufacturing and Delivery Time
